I was able to show that I understood the role of my officer by my actions.	I interacted well with other acting officers in the legislature to show that I really understand the roles and positions of the officer.
Effort	I did not show any interest in this activity.	I put a little bit of effort into this activity.	I made a point to learn my role and activity – I dressed the part.	I worked very hard each period to grow in my knowledge and understanding – my costume, posture and actions contributed well to the final product.
Group Work	I did not contribute anything and I was not flexible in my thinking.	I gave my suggestions but was not open to the ideas of others or I was open to the ideas of others but did not contribute ideas.	I was at times open to the ideas and suggestions of others I contributed ideas as well.	I worked cooperatively with others; contributing ideas, and being open to suggestions.
